 **Haws**®
HYDRATION

Model 2000HS

THOUGHTFULLY ENGINEERED

A refreshingly easy experience offering more than just hydration - it's a statement of innovation and convenience. RIVIVE™ seamlessly integrates into your facility, enhancing design and functionality.

- **Compliance:** 34" height for complete ADA compliance with 100% lead-free waterways.
- **Engineered, Designed & Assembled in the USA:** This product is thoughtfully engineered for durability, functionality, and ease of use.

- **Aesthetically Appealing:** Sleek and modern design seamlessly complements any facility. Intuitive LED electronic display keeps the user informed when the water is being filtered and how many plastic bottles have been saved.

EASE OF INSTALL

- **Smallest Footprint:** Bottle filler-only models are designed to fit within a 2x4 constructed wall between 16" on center studs, ensuring straightforward installation.
- **Intuitive Installation:** Featuring compact and well-placed drains, accessible electrician finish terminations, and ample space for a water stop, electric junction box, and drain connection.
- **Self-Squaring Mounting System:** Our user-friendly mounting system allows for adaptable and simple installation.

Full install drawings available at hawsco.com.

EASE OF MAINTENANCE

- **Easy Maintenance:** Filter changes are simplified with an accessible front panel and a quick-change filter system.
- **User-Friendly Interface & Programming:** Customizable settings allow users to schedule and adjust functionality for energy savings and enhanced performance.
- **Hygienic 24-Hour Purge:** Unique to Haws®, the unit automatically purges water every 24-hours when not in use, significantly reducing the risk of waterborne pathogens like Legionella.
- **Quick Onsite Support:** Access QR codes to documentation, along with how-to videos and online documentation for technical support needs.
