

model 1011.85F

Filtered ADA Vandal-Resistant Chilled Dual Fountain and Motion-Activated Bottle Filler

FEATURES & BENEFITS

CONSTRUCTION

Rugged ADA accessible 18 gauge Type 304 Stainless Steel swirl design bowl, 14 gauge Type 304 Stainless Steel bracket, and a vandal-resistant bottom plate provides a long lasting unit with added peace of mind.

FRESH FILTERED WATER

Always fresh filtered water, 3000-gallon (11,356 L) capacity, reduces chlorine (taste and odor) and lead, and removes 99.99% of cysts, and comes with a mounting bracket.

BOTTLE FILLER

Vandal-resistant, 14-gauge Type 304 stainless steel bottle filler housing with touchless operation and 1 gpm (3.78 L)laminar flow.

VANDAL RESISTANT

The bubbler heads, push buttons, sensor, round bowls, drain strainers and bottom plates are locked in place, discouraging unwanted vandal tampering, and 30-second obstruction timeout to reduce tampering of sensor.

BUBBLER HEADS

Polished chrome-plated brass bubbler heads with integral laminar flow prevents splashing while providing a superior flow pattern. The integral 11/16" dia. basin shank and stainless anti-rotational roll pin add vandal resistant strength. Shielded, angled stream opening provides a steady source of drinking water at .45 gpm.

FOUNTAIN VALVES

Bottle filler incorporates a touchless sensor operated stainless steel solenoid valve controlled by a transformer, and a push-button activated valve which offers the only all stainless-steel valve body that is machined out of solid bar stock and is fully serviceable through the front of the push button assembly offering access to the water control cartridge and integral water supply strainer on the fountain.

MOUNTING

Heavy-duty 16-gauge galvanized steel mounting frame with welded-in heavy-duty 10 gauge mounting plate with prepunched mounting holes. Further convenience is given to the chiller with the integral fold-out shelf, and an in-wall 3/16" thick steel mounting plate for the bottle filler.

OPTIONS

- Bottle Filler Stand: Model BTL1001, add-on stainless steel stand to place bottle on when 1920 bottle ller is used.
- Copper Push Button: Model PBA6C, flanged push button assembly with antimicrobial copper button.
- Fountain Skirt: Model SK3, stainless steel cane touch skirt for installation on high unit in some applications that may need to comply with ADA protruding objects guidelines.

For more information, visit www.hawsco.com or call (888) 640-4297.

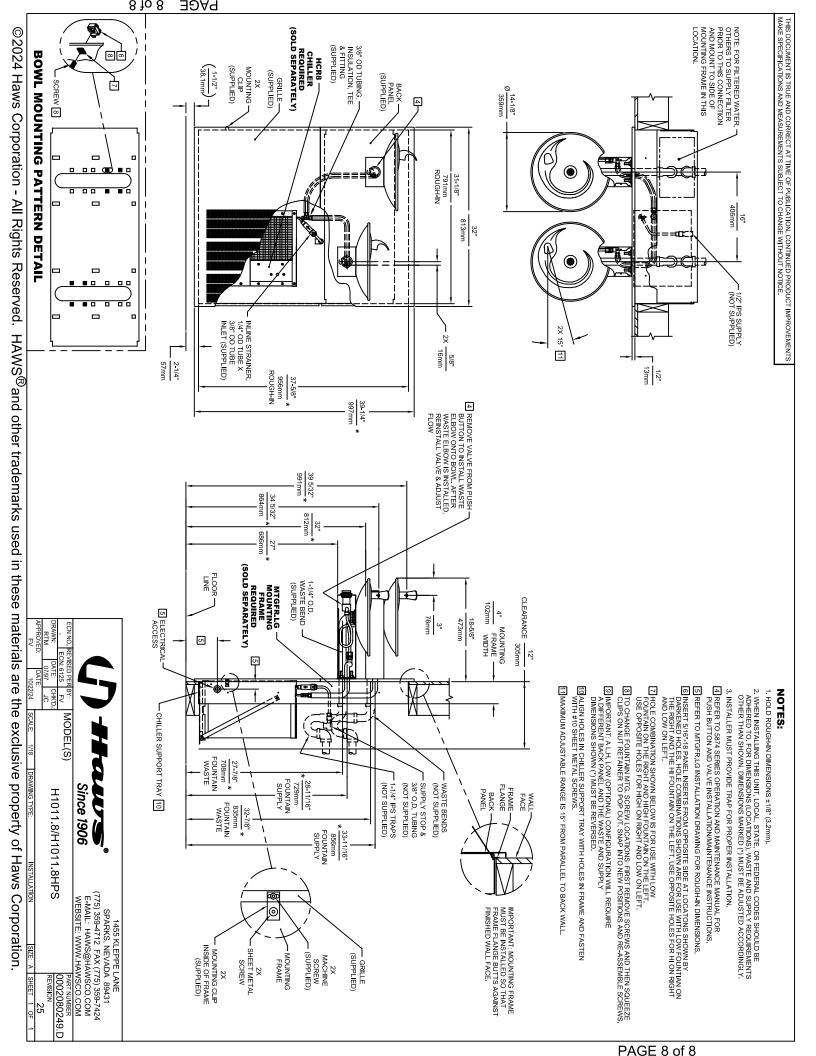

SPECIFICATIONS

Model 1011.8SF ADA vandal-resistant wall-mounted filtered drinking fountain and motion-activated bottle filler shall include dual 18-gauge Type 304 Stainless Steel satin finish basins with integral swirl design, 14 gauge Type 304 Stainless Steel wall brackets and bottle filler bracket, 3000 gallon carbon block filter reduces chlorine (taste and odor) and lead, and removes 99.99% of cysts and includes mounting bracket, 100% lead-free waterways, sensor operated solenoid valve with 30-second obstruction time-out for the bottle filler, vandal-resistant pushbutton operated stainless steel valves with front accessible cartridge and flow adjustment on the fountain, polished chromeplated brass vandal resistant bubbler heads with integral laminar anti-squirt flow , 1 gpm (3.78 L) laminar flow bottle filler with in-wall 3/16" thick steel mounting plate, chrome-plated brass vandal-resistant waste strainers, vandal-resistant bottom plates, stainless steel satin finish back panels and louvered intrusion-proof grill, high and low fountain mounting levels, and 1-1/4" O.D. (3.2 cm) waste pipes. The refrigeration system is hermetically sealed and delivers a minimum of 8 gph (30.3 L) of water at 50° F (10° C), 115 Volts, 60Hz, rated watts: 370, full load amps: 5. Haws electric water coolers comply with ARI Standard 1010 and ANSI A117.1, and are listed by Underwriter Laboratories to U.S. and Canadian standards.

APPLICATIONS

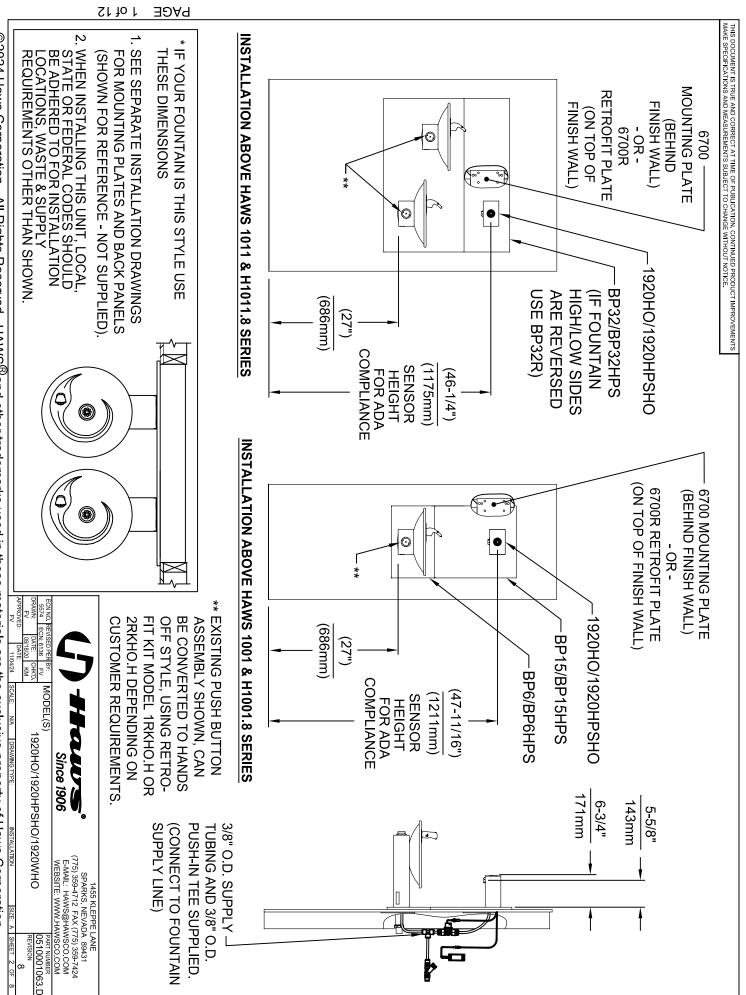

Specifically, this type fountain may be placed in settings such as: schools, office buildings, shopping malls, and other indoor environments where there is a demand for a chilled water source and/or wheelchair access. Electric water coolers are not recommended or designed for outdoor applications or enclosed pool areas (chlorine). These conditions may void warranty. Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, faucets and electric water coolers to be lead-free by all known definitions including NSF/ANSI/CAN 61-Section 9, NSF/ANSI/CAN 372, California Proposition 65, and the Federal Safe Drinking Water Act. Product is compliant to California Health and Safety Code 116875 (AB 1953-2006), and 116876 (AB 100) "NSF/ANSI/CAN 61: Q ≤ 1".
